EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Insert the following as the first paragraph of the specification:

"This application is a continuation of application serial number 09/662598, filed September 14, 2000, now U.S. Patent 6,358,881, which is a continuation of application serial number 08/833825, filed April 10, 1997, now U.S. Patent 6,165,933, which is a continuation of application serial number 08/435687, filed May 5, 1995, now abandoned."

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a composition and method of using it in a cracking process as claimed in which the composition comprises, in addition to alumina, an alkaline earth metal, and palladium in the claimed amounts, at least one part by weight of a transition metal oxide having oxygen storage capacity per 100 parts of support. The declaration of Yaluris filed on August 5, 2004 indicates that the Group IIIB metal oxide disclosed by the McCauley reference does not have the claimed oxygen storage capacity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
